CYBER COP

CYBER Cop's mission is to educate our youth about the dangers of Cyber bullying, promote Safe Internet Usage, and Responsible Social Media practices. The Harlingen Police Department is excited to reach out to our younger generation by visiting area schools and attending various functions. We realize that one day the younger generation will step into our duties as Police Officers. I'm pleased to present to you "CYBER" which stands for: **Creating Young, Brave & Educated Responders.**

Our 2015 National Night Out theme is "Neighborhood Watch-Community Super Heroes". Together we have succeeded in reducing crime throughout our city. Come celebrate our partnership and meet our super heroes at Lon C. Hill Park for a fun night of games, music, and free food!
