## City of Harlingen Crime Analysis

### Crime Measurements

The City of Harlingen Police Department participates in the Uniform Crime Reporting (UCR) Program. UCR makes possible the measurement and analysis of crime index.

### Crime Index

Uniform Crime Reporting is the reporting of seven index crimes. The crimes in this group are all serious, either by their nature or because of the frequency of their occurrence. These crimes can be categorized as violent crimes or property crimes. Violent crimes include murder, forcible rape, robbery, and aggravated assault. Property crimes include burglary, larceny/theft, and motor vehicle theft.

### Index Crimes 2003-2007

## Crime Trends

Crime trends are analyzed using two separate methods, crime volume and crime rates. Crime volume is the collective sum of the seven indexed crimes. By comparing the volume of indexed crime from year to year, trends can be evaluated.

Crime rates on the other hand, are compiled to compensate for the changes in population and show the number of people affected by crime in a given population. Crime rates are usually expressed in the number of crimes per 100,000 residents.

### Crime Volume

During the calendar year 2007, there was a total of 4,837 index offenses in the City of Harlingen. The crime index decreased 1.0 percent when compared to 2006.

## Index Crime Analysis

## Index Crime Analysis

### Murder

#### **Definition**

Murder and non-negligent manslaughter is defined in the UCR program as the willful killing of one human being by another.

This offense category includes any death as a direct result of a fight, argument, quarrel, assault or commission of a crime. Attempted murder and assaults with the intent to kill are not counted as murder, but are included in UCR as aggravated assaults. Suicides, accidental deaths, and justifiable homicides are also excluded from the murder classification.

The classification of this offense as well as for all Index Crimes, is based solely on police investigation and not upon determinations by courts, medical examiners, coroners, juries or other judicial bodies.

#### **Analysis**

##### **Volume**

There were 4 reported murders in Harlingen in 2007. Two of the 4 cases were cleared by arrest, one was submitted to the District Attorney's office for review, and one case remains under investigation.

**Murder 2003-2007**

On February 18, 2007, a 37 year old Hispanic male was shot outside of a restaurant. Case is still under investigation.

On February 18, 2007, a 33 year old Hispanic male was shot several times outside of a residence. A 32 year old Hispanic suspect was arrested after investigation.

# Rape

## Definition

Rape is defined in the UCR program as the carnal knowledge of a female forcibly and against her will. Statistics reported in this crime category include assaults to commit forcible rape. Rapes or attempts accomplished by force or threat of force are classified as forcible regardless of the age of the female victim. Statutory rape (rape against a female under the age of consent) and sexual assaults on males are excluded.

## Analysis

### **Volume**

The number of reported rapes in Harlingen in 2007 was 27. This represents an increase of 28.6 percent when compared to 2006. The month of April had the most reported rapes.

### **Rate**

The rape rate for Harlingen was 40.1 rapes per 100,000 persons. The rape rate increased by 26.9 percent from 2006.

### Nature of Rape

Forcible rape differs from other violent crimes because in many cases the victim is hesitant to report the offense to police. The rigors of court procedures, embarrassment and fear of any accompanying stigma exert a deterrent effect upon the victim's willingness to contact the police. The presence of prior relationship between the victim and offender may make the determination of force difficult to establish, while the usual clandestine nature of this crime presents a problem in verification. As attitudes toward the reporting of rape change, trends in the number of reported offenses can be expected to change correspondingly.

**Rape 2003-2007**

**Rape Offenses by Month 2007**

### Persons Arrested

There were 5 arrests for rape in 2007 (4 adults and 1 juvenile.) Of the 27 reported rapes, 11 remain open.

## Selected Non-Index Crimes

**Selected Non-Index Crimes**

**DWI**

**Definition**

Driving While Under the Influence (DWI) is defined in the UCR program as the driving or operating of any motor vehicle or common carrier while under the influence of liquor or narcotics.

**Analysis**

**Volume**

As with Part II non-index crimes, information on the number of reported crimes is not collected by the UCR Program for this offense. However, the number of persons arrested for this crime is collected.

The number of arrests for DWI in Harlingen in 2007 was 484. The volume of arrests increased 75.4 percent from 2006.

**Rate**

The 2007 DWI arrest rate was 718.9 per 100,000 persons. The DWI arrest rate increased by 73.1 percent when compared to 2006.

**Persons Arrested**

Of the 484 people arrested for DWI in 2007, 412 were males and 72 were female. The age group with the highest number of DWI arrests was the 20-24 for males and females.

**Nature of DWI Arrests**

Any consideration of the number and rate of DWI arrests must be reconciled with the fact that many factors control the ability of law enforcement officers to detect drunken drivers. Among the significant factors which drive the DWI arrest rate are these: media coverage of the DWI problem, public awareness, availability of funds for patrol officer overtime, and the skill and training in DWI detection of officers.

# Family Violence\*

## Definition

The Texas Family Code defines Family Violence as an act by a member of a family or household against another member that is intended to result in physical harm, bodily injury, assault, or a threat that reasonably places the member in fear of imminent physical harm. The law excludes the reasonable discipline of a child and defines abuse as physical injury that results in substantial harm or genuine threat; sexual contact, intercourse, or conduct; or compelling or encouraging the child to engage in sexual conduct.

By definition and for the purposes of family violence reports, 'family' includes individuals related by consanguinity (blood) or affinity, marriage or former marriage, biological parents of the same child, foster children, foster parents, and members or former members of the same household (including roommates).

### Uniform Crime Reporting Offenses

Offenses in Uniform Crime Reporting are divided into two groups designated as Part I and Part II offenses. Offense and arrest information is reported for the Part I offenses, while only arrest information is reported for Part II offenses.

#### **Part I Offenses**

**Criminal Homicide** – (a) Murder and non-negligent manslaughter: All willful felonious homicides as distinguished from deaths caused by negligence. Excluded are attempts to kill, assaults, to kill, suicides, accidental deaths and justifiable homicides. Justifiable homicides are limited to: the killing of a person by a law enforcement officer in the line of duty; and the killing of a person in the act of committing a felony by a private citizen; (b) Manslaughter by negligence: any death which the police investigation established was primarily attributable to gross negligence of some individual other than the victim.

**Murder and Non-Negligent Manslaughter** – The willful (non-negligent) killing of one human being by another. This includes any death due to injuries received in a fight, argument, quarrel, assault, or commission of a crime. Suicides, accidental deaths, assaults to murder, traffic fatalities and attempted murders are not included.

**Justifiable Homicide** – The killing of a person by a law enforcement officer in the line of duty; or the killing (during the commission of a felony) of a felon by a private citizen.

**Manslaughter by Negligence** – The killing of another person through gross negligence.

**Forcible Rape** – The carnal knowledge of a female forcibly and against her will.

**Robbery** – The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

**Aggravated Assault** – An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

**Burglary** – The unlawful entry of a structure to commit a felony or theft. This includes breaking and entering with intent to commit a larceny; housebreaking; safe cracking; and all attempts at these offenses.

**Larceny/Theft** – The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. This includes pocket-picking, purse-snatching, shoplifting, theft from motor vehicles, theft of motor vehicle parts and accessories, theft of bicycles, theft from buildings, theft from coin-operated machines, and all thefts that don't fit into the above mentioned categories.

**Motor Vehicle Theft** – The theft or attempted theft of a motor vehicle, which is defined as a self-propelled vehicle that runs on land surface and not on rails.

## Glossary of Terms

**Adult** – In Texas, an adult is a person 17 years of age or over. National law provides that adults are age 18 or over. Unless otherwise indicated, this publication follows the state definition.

**Cleared by Arrest or Exceptional Means** – For Uniform Crime Reporting purposes, an offense is cleared by arrest or solved when at least one person is arrested, charged with the commission of an offense and turned over to court for prosecution. In certain situations, police are not able to follow these three steps and, if the following four conditions can be met, the offense can be cleared exceptionally: (1) the investigation has definitely established the identity of the offender; (2) there is enough information to support an arrest, charge, and turning over to the court for prosecution; (3) the exact location of the offender is known so that he could be taken into custody; (4) there is some reason outside the police control that prevents the arresting, charging, and prosecuting of the offender.

**Crime Index** – The sum of seven index offenses used to measure the extent, fluctuation and distribution of a crime in a given geographical area. Crime classifications used in the Crime Index are: murder, rape, robbery, aggravated assault, burglary, larceny/theft and motor vehicle theft. While arson is also an index offense, it is not part of the Crime Index.

**Crime Rate** – The number of offenses per 100,000 inhabitants. To calculate a crime rate, divide the population by 100,000 and then divide the number of offenses by that answer. The crime rate is useful in determining the relative frequency of crime without regard to fluctuations in population.

**Index Crime** – A crime for which reports of offenses committed are collected. Index crimes are murder, rape, robbery, aggravated assault, burglary, larceny/theft, motor vehicle theft and arson.

**Juvenile** – In Texas, a juvenile is a person 16 years of age or under.

**Non-Violent Crime** – Property crimes; the index offenses of burglary, larceny/theft and motor vehicle theft.

**Personal Weapon** – The use of hands, feet, fists and teeth as a weapon to commit a crime; also termed strong-arm weapon.

**Strong-Arm Weapons** – The use of hands, feet, fists and teeth as a weapon to commit a crime. Also termed personal weapon.

**Threat** – A declared intent to inflict bodily harm on a person.

**Violent Crime** – Consists of the Index Offenses of murder, forcible rape, robbery and aggravated assault. Also referred to as crimes against persons.
